Recognising Achievement at Malton School

House Points and Congratulatory Referrals

These are awarded for good work throughout the year.

Commendations

On three occasions during the school year teachers are asked to nominate one student in each of their teaching groups who has performed well in respect of the level of attainment they reach, the effort they apply, or the improvement they have made. A commendation letter signed by the Head and Deputy is then presented personally to each student.

Examinations Success

Grades in all subjects taken are aggregated and students are ranked in order of their performance. The top students in each year group receive a letter of congratulations on their achievement.

Annual Awards

In 1999 the first awards were made to all Malton School students who had performed well during the school year 1998-9. To qualify for an award, they either gained three or more commendations, or they finished in the top ten in their year group.

A special limited edition of enamel badges was commissioned for the awards, based on the school shield which we use as a simple but instantly recognisable symbol of quality at Malton School.
